				Harassing, and/or Violent nature.		
CP-1044-23	Developer Contribution Policy	November 20, 2023	Revision	Provides direction to finish collecting for past funded projects. The projects for new growth requirements included arterial roadways, recreational and open space/park needs. These development contributions are collected through the Development Agreements.	The previous version of the Developer Contribution Policy dealt with development to pay for new growth requirements for improvements to areas. This policy covered recreational amenities, park development, cash in lieu of municipal reserve in industrial lands, administrative studies, and land acquisition for arterial road widening. Through reviews in 2022 of the development agreement, off-site levies, and this policy, it was determined that there was a need to update this policy to align it with certain improvements to be funded by developers.	2,011 - Developer Contribution Policy
